Since our last reunion we have sold our business we had for 30 years, as probably a lot of the other classmates have done. We still live in the same place in Jerome as we have lived for the last 26 years. We spend most of our time with our four grandchildren, ages 9-10-11-12, and going to Lake Powell in our boat and to the San Juan Islands in Washington. Other than that we spend most of our time around home just hanging out. We look forward to this reunion and are anxious to see everyone.

Change is good; so is gradual change. That is what retirement has produced in my life. My daughter, Michelle, has two children Conner, who is sixteen, and Jessie, who is eleven. They're wonderful. My son and his wife, Veronica, have a very new son, Joaquin, born April 29th. He is the new little man in my life! I'm finding Seattle is too far away.

Retirement has given me time for projects like reading, connecting with my grandkids, and traveling. Traveling is my career in real life! Mrs. Bovey was right—history is exciting!! My dream trip always had been China, which happened in 1998. I was unaware of my real dream, Angkor Wat in Cambodia. Thailand is a close second. John and I traveled there in 2004 and again in Feb. 2006. (When the tsunami happened we were drawn back.) Thailand is really "the land of smiles".

KAY BYRUM BRUNNER

Graduated - Kinman Business University, Spokane, Washington Worked as a secretary and bookkeeper for a dude ranch out of Tie Siding, Wyoming. Worked for banks in Gooding, Idaho and Elko, Nevada. Met my husband-Marc-in Elko. He was a conductor on the Western Pacific Railroad. We moved along the railroad line from Elko to Stockton, California, back to Elko, then to Salt Lake City. Union Pacific bought Western Pacific, so remained in Utah. Was a housewife and a 4-H leader in the horse program for 10 years. We boated Lake Powell for 15 years and rode motorcycles. Marc retired in 2000 with 44 years on the RR. We traveled to London and Paris. Then I lost him to cancer in 2002 after 36 years of marriage. I then moved to a small

house and closer to my girls. In retirement I baby-sit my 4 grandsons and 1 granddaughter and travel. Last year was busy. Went with my sister-in-law to Hawaii. Then my oldest daughter and family adopted a daughter from China. I went to help with her 2 boys. Wonderful Trip!! Then youngest daughter had her second son. Then my son got married for the first time. Am sorry I won't be there to see everyone as I will be in Elko for my son's birthday. Hope to see everyone at the next one!! Hello to all.

Kay

Dear classmates,

I moved to Ketchum in 1961 and except for one year I've been here since high school. I drove over the road trucks for 30 summers and in the winters I worked for Sun Valley Co. as a ski patrolman. As a truck driver, I've been in all 48 states, all the provinces in Canada, and also in Alaska. I've seen a lot of country and must say I am very fortunate to call the Wood Rover Valley my home. I've skied every major ski resort in the west and can say without any reservation that there is not a mountain on earth that compares with Bald Mountain here in Sun Valley. During the 38 winter seasons when I was on ski patrol I averaged taking 50 skiers that were injured off the mountain each year. (50 x 38 = 1900 injured) Thanks Mrs. Young. I retired from truck driving in 1999 and from the ski patrol in 2004. My two sons are married and I have four grandchildren. My daughter will be 14 years old this summer. She has been on the Sun Valley ski team for 8 years. Last winter she was invited to the Jr. Olympics in Snowbird, Utah. I now work part time for my sons in their excavation company. I still ski in the winter and do a lot of fishing, riding my road bike in the summer and fall. I often think about my pals and enjoy the memories of the good times we had back then.

I was a hairdresser for 30 years. After the decline of my marriage I went back to college. I am now a pharmacy tech, have been one for the last 16 years, 5 of which I used to work at St Luke's in Boise. Now I am at Magic Valley Regional in Twin Falls. I've lived in my own home here in Jerome for 11 years now. I have two hairy companions that live with me. I call them (girls) 2-4 years old Border Collies, named Sugar & Spice. I'm a proud Grandma of 3 boys and 3 girls! My oldest grand daughter graduated from high school this year. I had 3 children, 2 now living. A young man named Lance and my daughter Tammy. I love to sew, read, paint and all kinds of crafts. I love living close to my best friends (my sisters).

Hello Classmates of "61". It doesn't seem like 45 years since we graduated! But when I look back at all the changes in my life—it has been a long time. As of July husband and I will be married 43 years. WOW! We have 4 children, 3 girls and one son. As of June 21st we have 12 grandchildren. What fun they are—ages from 17 years to one week old. I'm a proud grandma. I have not yet retired, two more years! I have worked as a cake decorator at Costco for 13 years. They have been good to me but I'm still looking forward to retirement. My husband and I have had a good life. God has blessed us so many times. It's great!! I hope life has been good to all of you.

Love June,

WILLIS & ANNE (HUMBACH) BROWNLEE

HAYDEN, ID 83835
208-772-5489

We attended college at Idaho State and the College of Southern Idaho. In 1966 we moved to Coeur d' Alene where I was employed with the Idaho State Police and Anne worked in the school system. We moved to Boise 1987-1995 where I was the ISP District Captain and Anne was the office Manager for the Western Idaho Fair. We moved back to Coeur d' Alene in 1995. I retired in 2002 after 36 years with ISP. We have two children, Todd and Christine and three grandchildren, all living close by. We occupy our retirement time with family, sailing, motorcycle touring, gardening and classic car events.

Well I don't where to begin so I guess I will begin after returning from our 40 year Class Reunion so as not to bore you with old information☺ I worked from 2000 through July 29th 2005 for Arizona State University in the History Department as the Assistant to the Director of the Graduate Program. I really enjoyed working at the University, but moved to an Active Adult Community in Sun Lakes in January, 2004. The move made my commute farther—even though I thought the longer commute wouldn't make a difference, it did. My commute was about 20 miles each way and mostly Freeway so my desire to find work closer to where I live increased. If you have every been to Phoenix, Arizona during rush hour, you might think twenty miles isn't that far, but when you are driving with 50,000 other nuts—it makes for a long commute☺. In July of last year, I was offered a position at the Chandler Chamber of Commerce which is about 12-15 minutes from my new home that I had built in Sun Lakes, so because the commute was 30 - 45 minutes less each way and I didn't have to drive on the Freeway—I accepted immediately and said WOOHOO! I love my job at the Chamber of Commerce—very little stress—meet nice people who really appreciate any help I give them and I also work with some nice people, which is a real plus these days☺I am a "Nana" to 5 active and wonderful grandsons ranging from age 11 down to 4 years old. Since our last reunion, my youngest daughter Leanne had her 3rd son Blake Matthew. My grandson's names are Brendan, Riley and Blake in Leanne and Patrick's family; Trevor and Alex in Shelly and Rich's family. I know I don't sound like a proud Nana or anything like that, but I feel so blessed. After raising two daughters—the grandson's have been a fun adventure☺ I have learned more about bugs and reptiles than I ever wanted to know but they are so much fun. As we get older we sure need to count our blessings. Every morning I am thankful that I woke up to yet another wonderful day. I know that sounds hokey but when you have been through having your heart stop on the operating table in December of 2003 during surgery and you have survived Cancer—you tend to appreciate all that life gives you and especially my family and my friends. I sing in our church choir and swim most days at the clubhouse near my home and just try to enjoy life.

Hope to see you all at the Reunion!

Your Classmate,
Camille (Cox) Irwin

As I come to the close of this history booklet (mine being the last one entered) I'M TIRED OF TYPING ●! I am still gainfully employed (not gainfully enough though)! I work for Glanbia Foods and am the purchasing agent for the Gooding Cheese Plant. My life has been richly blessed with two sons and eight grandchildren. Between work and grandkids activities I am rarely home (for those of you who have tried to call me and reached only my answering machine—that's why I have one.) My son Clay is married to Shauna Warr and they have five children, Josh, Ethan, Taylor, Hudson and Emerson. Clay and family live between Caldwell and Marsing. Clay has an international logistics company based in Boise and Reno (he also works part time in the Boise Temple). Robby has three children, Riley, Abby and Maggie. Robby is the Principal of the new Middle School in Wendell and serves on the We the People Committee as one of Idaho's representatives in Washington D.C. (Thanks to Marilyn Bolich Garcia, he met the right people at the start of his career.) He was recently awarded the National Milken award which is a national education award. (Those in the education field have probably heard of this award.) I am active in my church (LDS) and am very busy with Stake and Ward positions. This quote from Gordon B. Hinckley pretty much sums up my philosophy on life; "In terms of your happiness, in terms of the matters that make you proud or sad, nothing—I repeat nothing—will have so profound an effect on you as the way your children turn out." My children were and are not perfect—just perfect for me. My favorite hobby is photography although I still enjoy golfing when I have the time. (Linda Morris we need to talk photography sometime.)

I've lived in Boise, ID. Since 1988 and have no plans to leave the area. There are lots of things to do here. A year ago my Mom's health became so bad that I moved her to an assisted living near me. She needs 24 hour care and since I work I can't be with her all of the time. It's great having her here. I'm not able to make it to our 45th class reunion. I had an accident at work and hurt my back. I may be having surgery around that time. I hope to see you at the next reunion. Lynda

How hard is this to believe? I remember reading the paper and thinking how old those folks were that were having their 456th reunion. Wally & I are still living on the South Butte. We have been here 34 years now. WOW. I sold my business this last year and decided to retire. Play the odds. We have lost so many friends and family that it seemed like a good idea. So far we have been spending a lot of time in the yard. Wally dug a fish pond. Oops a fish lake. We have 150 gold fish and multiplying. We have two English Bulldogs, Gracee and Hercules. This keeps us very busy at home. Our daughter Polly with her husband and two children Katelynn-15, & Brock-11 are moving back to our area. They are looking for a home or land around Kimberly. Gary will be managing D&B in Twin Falls. Polly's company is setting their business up in her home. This will be fun to have them so close. No more driving so far to ball games. Our son Rance & wife Melissa three boys Jacoby-10, Kehler-7, & Kreede-5 are still in Kuna. Rance still manages Far West Landscaping. He has done this since he was at Boise State. Melissa is part owner in Security Funding. We do a lot of running as all three boys wrestle, play baseball and soccer. What fun. Wally and I with brother Ed and Sharon Peterson

are in the process of getting Jerome's Planning & Zoning to rezone the lots on our golf course so we can start building homes. This will be quite an undertaking. Can't be much more than building a golf course? Wally did all the construction on our course. I am pretty proud of him. This should keep us busy for the next 15 years. Hopefully our health will hold out. Looking forward to seeing all of you. Hope most of our class will make it.

Since the last class reunion, a number of things have taken place in my life. I am able to enjoy my children more, of which, I have two very special daughters to enjoy life with. Stephanie is a mom of four children and has just completed the medical assistant program and has a nice position. Jennifer spent 10 years in the army and was at Bowlin Air Force Base in 2001. She now works for the Department of Agriculture in Missouri and is married with one child. Two wonderful step-sons. Kevin is a newspaper editor, which is the love of his life—he works nights and not much time for anything else. Michael enjoys sharing great experiences with young people, so he became a professional Scout. His wife and three daughters share many of those experiences. After living several adventures in different parts of the country and even outside of this country, Arizona being the last adventure, I have now made my home in Hagerman with my husband George. Hagerman is a great place to live and there are good people here. I have a great job working for an agency that provides several services for people with disabilities and mental health issues—although I would like to be totally retired to spend more time with George, which brings a miracle. George was forcibly retired for medical reasons, but a miracle is the only reason he is still here. I am grateful to be able to share more years with him. Congratulations to a special class that has touched many lives in a special way, and may all our lives be filled with many more years of miracles and great experiences that we can share until the next class reunion.
Ilene

DIANE DIXON WINKEL

After high school, I attended Brigham Young University and graduated in 1965 with a degree in English. I married Bob Winkel a few months before graduation. We lived in Boulder, CO, while he completed his PhD in engineering, then a few years in Idaho Falls, and the past 32 years here in Richland, WA. We have raised four children, 3 of whom are still living. We have five precious grandchildren. We recently spent 18 months serving a mission for our church in New York City, returning home last fall. We spend our time now enjoying our grandchildren, doing Church work, caring for our yard and home, and basically doing whatever we feel like doing. I hope everyone else is as lucky.

Dianne (Dixon) Winkel

JODY EVERHEART MILLIGAN
BOISE ID

I currently live in Boise. I have my own cleaning business. If I'm lucky, I will be able to retire at ninety. I have two daughters, Genii the oldest, and Sarah the youngest, along with three perfect grandchildren. My grandson, Rylie, is 13, his sister, Samantha, is 8, and my youngest Madison, is 5. They are the loves of my life. Life is good.

TOM FORT

Well, here's the blurb on myself and the past 45 years!

Following graduation in 1961 I entered Northwest Christian College in Eugene, OR for ministerial training. While there I met Roberta, my future wife. After completing the Bachelor of Theology degree in 1967 I worked as an Associate Minister at a church in Eugene, OR. Roberta and I married in December 1969 and have enjoyed 36+ years of marriage. Following three years of working with youth (*Jr High, High School & College age*) I left employment at the church and entered the University of Oregon for graduate studies in Speech and Rhetoric. During that time we began considering long-term missionary service in Africa. I entered Fuller Theological Seminary, Pasadena, CA in 1971 to prepare for cross-cultural ministry. I did not complete that degree until 1987, however. From 1973 to 1990, minus furloughs, we worked in Zambia, Africa (*formerly Northern Rhodesia*) mainly as church planters, but doing a variety of things. We learned the dominant African language of our area (*Bemba*) and taught in both English and Bemba. We worked in town with college and university graduates as well as in the villages with non-literate adults. It was a richly rewarding time. Our world perspective grew enormously during those years and I feel deeply indebted to the African people for those experiences. In 1978 we adopted our son, Josh, who now has his own family in Hillsboro, OR. (*We have one grandson!*) We returned from Zambia in June 1990 to help take care of my mother who was in need of financial assistance and health care. We settled in Hansen, ID near Roberta's relatives and near a small school for Josh to attend (*he was 12*). Mom died shortly after I arrived back, however. So after the school year was over we moved to Yamhill, OR, in 1991, to be near Roberta's parents (*who were also advanced in years*). Roberta re-entered her profession of Physical Therapy and I took temporary employment as a truck driver. Later I worked for Pacific University, Forest Grove, OR as an office manager of the School of Physician Assistant Studies, during the PA school's formative years. I left Pacific in 1999 and in 2000 began my present employment with Bailey Nurseries, Inc., Yamhill, OR in their HR Department (*Benefits & Safety*). Bailey Nurseries is one of the larger wholesale nurseries in the nation, based in St Paul, MN. My office is a half mile from home! I do not earn my living through paid ministry these days but I continue serving the church on a volunteer basis. We live on Roberta's home place, a "gentleman's" farm of 17 acres, with her mother. Her dad died last year. We rent out the pasture. I think it's nice to have 23 head of Angus steers to talk to when I need to get rid of frustrations! I have slowed down considerably following two heart attacks and a stent. Roberta's health is great. We love life, enjoy working our jobs, enjoy serving in the church and community, enjoy our son and his family, and most importantly, enjoy growing in our relationship with God. If the opportunity presented itself I could return to Africa in a heartbeat and finish out my days

Four years ago I decided I needed a change and maybe some action in my life. In a moment of madness, I filed and ran for mayor of our city of 15,000. I was elected and am now starting my second term. This has been challenging to say the least, but I enjoy it. Needless to say, I have more action than I can handle at times. I am looking forward to visiting with everyone and excited to see Jerome. During the last forty-five years (can you believe that?) I graduated from college, taught high school and junior high for twenty-seven years, have been married to the same man for thirty-five years, have raised two boys, and have become a grandmother of two. I have even lived in the same house for thirty-five years! You might say, I had been in a rut. Four years ago I decided I needed a change and maybe some action in my life. In a moment of madness, I filed and ran for mayor of our city of 15,000. I was elected and am now starting my second term. This has been challenging to say the least, but I enjoy it. Needless to say, I have more action than I can handle at times. I am looking forward to visiting with everyone and excited to see Jerome.

NEDRA HENDRIX ABERS
nedraabers@comcast.net

I will be unable to attend because I'm going to a wedding for a close friend's daughter. My information would all be the same anyway, except that my husband was diagnosed with Multiple Myeloma (a cancer of the plasma cells) 12/18/02, the winter after the last reunion, and he passed away 5/20/2004. We really enjoyed the reunion, especially the raft trip. He loved that sort of thing and it make the trip to the reunion worth it for him. After 41 years of marriage, losing him has changed my life in many ways—even if all the history and information, job, etc., are all the same. Oh yes, and I have a grandson now- the joy of my life!! My husband got to enjoy him for 8 months, so that was a blessing, even though the most difficult part of the loss is him not getting to watch his grandson grow. I hope all is well with you, and that the reunion goes great! I will be planning to attend the next one.

BEN C HOSKINS
hbenjammin@sbcglobal.net

Now that 25 years have passed, my work at the Central Intelligence Agency has been Declassified and I am free to talk about it. Through a friend while teaching at Pocatello High School, I was able to land a Secret Service position working under G. Gordon Liddy at Washington D.C. We worked on numerous projects during the 70's, mostly involving gathering intelligence on the Vietnam War. The only significant project worth mention was at the Watergate Hotel. Three of us taped a door lock so we could return later that night and photograph documents belonging to the Democratic Party. Since a security guard noticed the taped lock and called the FBI, the jig was up. This started the process which forced Nixon to resign. It was exciting to have been involved in a project that changed the course of history. We were professionally trained spies usually working in disguise and using a code name. I requested the name of "Buck" I always thought the name to mean strength and power. So Gordon issued me the name of "Buck Naked" Carol and I have a rental business in L.A. together with our kids. We spend our leisure time watching our grandchildren torture their parents.

TONY HUMBACH

I know I am not alone in wondering where the time has gone and how it went so fast. I live North West of Jerome on the farm that I grew up on. I still farm it along with helping my son Michael and daughter-in-law, Beverly, three grandsons, Michael 6, Alec 9, and Justin 13. They live southwest of town on a large farm that borders the canyon. This gives the boys plenty of room to ride their horse and the 4-wheeler. Last summer my fiancé, Nancy Hite, Jerome Class of 66 and I bought 4-wheelers also and enjoy riding them. Nancy and I have been together for the past four years. We are presently remodeling her house in Buhl for sale and then tackle a remodel project here at the farm. I still like to travel. Two years ago Nancy and I went to Maui and had a great time. This past year I started skiing again-quite a challenge. We play golf whenever the opportunity occurs. My parents live full time in Yuma now so I am back and forth down there. It doesn't seem possible that since I retired from the Gov't in 1996 I ever could have found the time to work.

Tony

EILENE JENKINS WARDLE

I am now retired, I spent the last 45 years working in various areas of health care as a registered nurse. However, my most treasured memories are as a wife, mother and being Grammie 'Leen. Michael and I will be celebrating our 40th Wedding anniversary soon. We are the proud parents of four children and six grandchildren. We have lived in Boise, Utah, Casper, Wyoming prior to returning to Boise 13 years ago.

BONNIE JOHANSEN BRUCE
404 CROOKEDSTICK RD
JEROME, ID 83338

I don't know about you, but we are only as old as we feel and I don't feel old enough to be having a 45 year reunion. Bob and I have been very fortunate in our 40 year marriage, which along with our children and grandchildren have been the light of my life. We are both retired and now reside in Jerome. Bob had 21 years as an Air Force pilot and another 13 years as a Pilot for a company out of Las Vegas. I had the fortunate opportunity to stay at home and raise our children for most of his career. As our children went off to college, I went back to work as a Medical Technologist at Nellis AFB in Las Vegas. This was to help defray the cost of College, but was also very enjoyable!! Our daughter is married to Chad Avery and they have two children, Marita (7) and Jacob (4). Janet will be the new assistant Principal of the Jerome Middle School this year. She has previously been an English teacher at Jerome High School and was instrumental in instituting the Senior Project. Our son Rob is an assistant golf professional at Genoa Lakes, Nevada. It is a beautiful resort and Country Club near Carson City. Bob and I are enjoying being back in Idaho and plan to do some traveling around the Northwest. We like to play golf, so that will probably dictate our itinerary.

Life has been good to me the past five years. I married a fine lady and a good friend 3 ½ years ago. We built a new home 4 south and 3.2 east of Jerome. We both love where we live. I still work at the Auction, also at A.B.C. Seamless, selling rain gutter, steel siding, doors, and windows. Isure meet a lot of people all over the valley. I'm looking forward to seeing each and everyone of you.

Love, Vernon Kohntopp

SALLY LEE ARIAS
Isa54_mtl8@yahoo.com

After graduating from Jerome High School, I completed my BA in elementary at Idaho State University in 1965. I taught three years of school in Eugene, Oregon, then took one year of Bible Institute in Iowa, before going to Medellin, Columbia to teach American dependents' children from 1969-1972. The major portion of my life since that time has been spent in Columbia, teaching creation science among other topics (see www.answersingenesis.org) I married Daniel Arias in 1984, and together we produced a children's Bible radio program. I have authored several books in Spanish, including a science compendium for upper grade students and children's activity book, "Dinosaurs and the Bible." I was part of the founding committee of a Columbian National Association of Christian Schools, also gave seminars on creation science in Ecuador and Guatemala as well as Columbia. I returned to live in the States in 2003 but return yearly to Columbia. My latest trip was accompanying a Puerto Rican evangelist, Capt. Milton Alvarez, who has a worldwide prison ministry.

Sally Lee Arias

LEROY MAY

I remember it well...seems like it was only yesterday. Oh yeh! Starting school, going to school and graduating. Then there was all the fun (after school, that is). Then came a little college and a few years with Uncle Sam. After that, I found out that marriage was not a compatible option so I drowned my sorrows in such foolish activities as hunting, fishing, weightlifting, motorcycle racing, competitive shotgun sports and horse riding, plus various other interests as time would allow (surely, these had nothing to with the marriage situation? Just a thought.) Anyway, I still do the Taxidermy thing when it doesn't interfere with the important aspects of life. I have to keep reminding myself that "time not spent goofing off, is just time flittered away". My occupation is sorta like being retired and paid for it. I'm reminded of that fact everyday by friends, but what do they know? Whatever! Well, enough blah and yada. See ya soon.

LINDA OTTO MOORE

I have been living in Fayetteville, NC for the past 24-years and so by now this is home. My daughter, Anne and her husband live in Fayetteville and have blessed me with my first grandchild, Christian. He is an active 8-month old and a great joy to our family. Anne is a principal at an elementary school. My son, Paul and his wife live in Boone, NC. Paul is a fitness coordinator for the Wellness Center and teaches at Appalachian State University. It is hard to imagine 45-years have passed since our graduation from high school.

JIM PARKINSON

parkinsj@bellsouth.net

Since our last reunion I retired from Hercules Incorporated with 28 years of service. I got a little bored without a job to get up for each morning so started working at Sears as a part-time associate working in the Lawn & Garden and Fitness departments. I am still working about three days per week. In 2003 I began receiving my military retirement with 22 years service. I retired from the Navy as a Commander (05). Our daughter completed Veterinary School in December 2005 and is now doing her clinical work at the Auburn University School of Veterinary Medicine. She will complete this in December 2006 and receive her DVM Degree. My wife, June, and I are both enjoying retirement. As soon as our daughter received her DVM we plan to do some traveling. Hope you have a great reunion in July. Maybe I will be able to attend the next one.

We lived around Jerome until 1965 when we bought a farm south of Wendell and milked cows and farmed. In 1979 we moved to a farm in Hagerman (Tuttle) and are still farming. We have two kids, Ken and Rod. Rod has blessed us with 2 grandkids, Nathan (1988) and Morgan (1992). When we were younger we thought when we were 62- that you quit working and played; then we were 62 and we are still too young to quit working and forgot how to play. One thing for sure-how could we have gotten this old.

This will be a short update on my life since the last reunion. I am still single but always hopeful. I am involved in the Scouting program. Go golfing when I can. I work part time at the Klass Auction every Tuesday in Jerome. I also refinish and restore furniture. I will probably be starting a business doing furniture restoration with my brother-in-law. As for my health it has gotten worse since the last meeting. I have had 4 operations and am looking forward to likely have a couple more at least. So there you have it.

WOW! Can you imagine that it has been 45 years since high school graduation! I still have a lot of things on my "To Do" list - I will probably need another 45 years to get the list finished. Jerry and I have been married for 19 years. In our late-in-life-merger, we have seven children and 21 grandchildren. We have lived in a number of places across the U.S. and have enjoyed that opportunity and making great friends in all those different places. We moved from Boston to Salt Lake City nine years ago. I am a National Marketing Director and working fulltime with Juice Plus +® (raw fruits and vegetables in a capsule) Published research proves that it works to keep us healthier and younger - I am all for that! I love what I get to do every day - share with people a way to get healthier! Jerry is pretty much retired from Corporate America. Two years ago we completed our dream cabin on the banks of the Henry's Fork River in eastern Idaho (30 miles west of West Yellowstone). We spend a lot of time at the cabin. Jerry is an avid fly fisherman and I love photography. We are enjoying our children and grandchildren; they are the best treasure of all! I am looking forward to seeing our classmates at the reunion! Our shared Jerome roots run deep and I treasure the many friendships and memories from High School.

Yes, we are 45 years out and counting. No signs of slowing down yet. Nothing much has changed for me since our last reunion - just lots of livin' - as in work AND play. I am currently the Director for the Festival of Trees here in Gooding, serving on the Hospital Foundation for seven years. We have been blessed with good health-and a lot more maturity!! Spending time with many great friends and family is what Jonathan and I do best. I am fortunate to have both my children (Chrys and Bryan) and families living in Gooding with three wonderful grandkids. Jonathan's boys are both Marines, stationed at Camp Pendleton, California - one just recently married. Iraq will be Josh's destination in September, and Jon's some time after that. We will be celebrating a wedding in the Phillipines next May - 2007. I am looking forward to seeing all of you at the July Class Reunion.

Cynthia Russell Hoekstra.

Where have the years gone to? I can't believe it's been 45 years since high school. I am now retired, have three daughters, 7 grandchildren and 4 great-grandchildren (which I adore). Those 45 years have been good to me. I look forward to seeing all of you as we share our life experiences with one another.

Carolyn

RAE SILVERS SEELEY

Jim and I started dating when I was a sophomore and we've been a two-some ever since. We married on June 4, 1964 at the U.S. Naval Academy the day after Jim graduated. The next four years included two tours in Vietnam during which I lived in San Diego. After Vietnam, we moved to Annapolis where Jim was an Instructor at the Academy for the next two years - this was great duty and we decided to stay in Maryland after he resigned his commission. We worked together in the golf business for a private country club for

ten years and then for the PGA Tour the next twelve years. In 1995, Jim accepted an opportunity with Kemper Sports Management headquartered in Chicago and we have been here since that time. I continue to work in the Chicago office for a Partner of Technology Crossover Ventures, a venture capital firm headquartered in California. We will probably stay in Chicago for another four to five years and then retire in the town of Bandon on the Oregon coast. We have neither grandchildren nor children so we've made the center of our lives three adorable toy poodles named Puffin, Penny and Pepper. They are incredibly smart, well adjusted, well educated beautiful tiny dogs. They are convinced that they are little girls dressed in fur. The smallest is five pounds, the middle one is seven pounds, and the largest is ten pounds – real stair steppers and show stoppers. As you can imagine, they're just a handful, not a lapful. Ask me and I'll show you some pictures!

TERRY SMAIL

Dear JHS Classmates of 1961

1961? That's 45 years ago and obviously that can't be right. That would mean that Larry and Ron are...63 years old. Impossible! Rita is still 'Pickles', but the jar has been in the fridge for a while. Wally Williams is not the outgoing swashbuckler of old, but rather he is reclusing it in Eastern Canada. Man, what a difference nearly a half century makes. And as for me, the 45th anniversary of our JHS graduation is beginning to be a little troublesome. I can explain that my 31 year daughter Brittany was born when I was about 12. I can rationalize that my brown hair going rapidly to taupe has nothing to do with my age. It's the result of my 14 surgeries (10 knee operations thanks to football). The fact that we've had so many life experiences can be easily explicated—we've just been very busy. Not old, just busy. (In fact, I don't feel much different than I did when I was 35.) 45 years away from High School however, is making it tough to explain that we're really still young. Hmmmm? I think most of you know I've lived in Seattle for the last six years—I moved here in mid-2000. A great city: great people, nice weather (albeit a bit damp from November through June), lots of outdoor activities, and a host of great golf courses. And despite the winter rains, golf is a 12 month a year sport here.

A quick family update. Daughter Brittany is living in Boulder managing a new, hot restaurant. Son Patrick has been living in Seattle for about a year and a half pursuing his dream of music. (My dream is that he is successful so he can take care of me during my dotage.)

I left Cobalt about a year ago and am hoping the current management creates some value for my options. I'm now doing some consulting and working on getting my golf handicap back down to a respectable level. There are some signs of life for the old golf game—time will tell. I'm sorry that I won't be with you all for this year's celebration. Have a great reunion for our 45th and I commit to seeing all of you (assuming I'm able) at our 50th year reunion in 2011!!

Best regards to all,

Terry

Hi Kay, Sorry I'm late with this information, June reminded me yesterday.

Wayne and I will be married 43 years this summer. We have two children and five grandchildren. Samantha is married to Armando and their children are

in school here in Jerome. Dorothy graduates in 2007 and is 4.0 student.

Ethan will be in the 9th grade and will be working for his 4.0 grade. They both hold class offices for the coming year. They also do lots of sports.

Randall lives in Rendan, WA. Kyle will be 18 this summer and Michael will be

15. Kendra will be 13. So even the grandkids are growing up to fast. Wayne works at the

Northside Canal Co. here in Jerome. I continue to work as a nurse at Magic Valley Reg. Medical Center. I worked in the IT dept. programing computers for nursing, so I learned a lot about

computers. I now audit charts for the Quality Resources Dept. Besides working at our jobs, we have 15 acres north of Jerome, that keep us busy. I am also into quilting and drawing. I have

won several ribbons for drawing and oil painting. Wayne is restoring a 1966 Plymouth Satellite. He's making it into a muscle car. We are planning on retiring this next year and sorting out and

getting rid of some of the junk we have saved over the years. That will take a while, of course, nobody else has this problem. Our folks have passed on, so that line is getting shorter also.

Enjoy each day and have lots of fun.

After a 40 year absence from my beloved Idaho, my husband, Leonard and I moved to Hagerman on the Snake River. That was five years ago. It was like coming full circle as I always wanted to live in Hagerman. We are both retired. Leonard was a building inspector for the City of Pacific Grove, California for 35 years and I retired from California-American Water Company in Monterey, as the Human Resource Manager for 21 years. It is wonderful living close to family, friends and classmates. I continue to pursue my love of horse back riding and photography. Our four children and nine grandchildren are scattered in Oregon, California and Kansas. I look forward to renewing friendships and memories at our 45th reunion of the Jerome High School Class of 1961!

LARRY VICKERS

My wife, Pat, and I have been married for 43 years. We have a married daughter with 3 children. Our son is still single. We all live in Boise, Idaho. After getting married in 1963 my wife and I farmed all over the Magic Valley. We moved to Burley and farmed a few more years.

Selling our farm we then moved into town. After playing around for about a year I was looking for a new occupation. I found a job selling recreation vehicles. Two years later I bought the

business, owning it until 1991. We then retired, traveled around the country until 1994. My wife has had some serious health problems that have limited our full time traveling. Over the past

years we have enjoyed camping, motorcycling, buying, selling and showing antiques and specialty cars. I also keep busy playing the stock market. We enjoy watching our 2 grandsons

play baseball and football, our grand-daughter is their cheer-leader. In March we went to Disneyland and other attractions in Southern California with our grandchildren.

MOORPARK, CA 93021

I departed Jerome in Sept.1960 to join the Navy and see the world. I was still able to graduate (via GED) with the class of 1961. My 25 years with the Navy consisted of 11 years enlisted service and 14 years commissioned in the Navy Civil Engineer Corps. (SEABEES)
Upon retiring in 1985 I returned to college to get my bachelors degree and then began a second career in Public Works for the city of Oxnard, Ca. Retiring from the city in 2002. I began a consulting service providing Public Works management services to other cities in Ca.
My wife Helen and I also started an "at home" travel business and spend a great deal of time traveling all over the world on tours and cruises. We still reside in Oxnard Ca. My son Bill Durfee (from former marriage to Mary Jo Wilson) resides in Hagerman. We also have a son James who lives in Phoenix and a daughter in Aspen.

LARRY MARTIN

Larry Allan Martin

Larry was born on July 6, 1943 to Edgar and Edith Martin in Wendell, Idaho. On March 30, 2006, we lost a great dad, grandpa, and friend.

Larry's family will greet friends at the Best Western Northwest Lodge, 6989 Federal Way, Boise on Monday, April 10, 2006 at 12 noon.

Larry grew up in Jerome County and graduated from Jerome High School. Shortly thereafter, he joined the U.S. Navy and served aboard the USS Enterprise. Larry served with honor as a Damage Controlman and learned carpentry. While stationed at Portsmouth, Va., Larry met and married Betty Jean Deities.

Larry was an avid outdoorsman with a deep love for hunting, whether it was birds or big game. However, hound hunting became his passion. Many grand hunts with his dogs and good friends were some of his most cherished memories. Always including his children, and sharing his great knowledge of the woods and hunting.

Larry is preceded in death by his parents, brother Dan, and sisters Roberta, Grace, and Peggy. He is survived by sons David, Steven, and Brian; daughter Barbara; brother Cecil; sister Leatha; and numerous nieces, nephews and grandchildren.

Late in life, Larry's health failed him and walking Idaho's steep mountains became a challenge. But right now, he has a fresh pack of hounds and will be the first one at the tree. He will be deeply missed. Arrangements are under the direction of Relyea Funeral Chapel.
