After graduation, I went to work for First Security Bank, in 1963 Steve and I were married and we moved to Boise where I continued to work for First Security Bank. In 1966 we moved to Bellevue, Washington. I went to work for North West Bank. In 1971 our 1st son was born. In 1972 our second son was born. In 1976, I quit North West Bank and went to work for Rainier National Bank where I work today.

Steve works for Gossard Lumber Co. Our family enjoys fishing, camping, and the outdoors. I wish I would attend the Reunion, but I cannot get my vacation at that time.

(Guess I'd better quit, no more room)

I attended Utah State University where I met and married Denise. A very talented young lady from the State of Nevada. After additional schooling and employment for Safeway in the Utah area, we returned to Idaho. I leased a ranch north of Shoshone for 3 years. Realizing an opportunity to purchase a place of our own, we purchased our present ranch. We purchased our present ranch in 1971. We're located approximately 3 miles east of Hagerman.

For many years now I've found much pleasure in the challenges surrounding agriculture. We enjoy all phases of the ranch operation from row crop to cattle and hogs. Three years ago, organized a business known as Snake River Seed. (The primary area of concentration deals with chemicals).

Moreover, the main accomplishment the last 20 years has been a lovely wife and 6 children and an appreciation for their involvement in Church and Community affairs.

Wow! When I received my letter informing me of my 20 year Class Reunion, I couldn't believe it had been 20 years since I graduated.

After graduating from high school, I worked in Twin Falls for several

months. I then enrolled in September 61 for Beauty College in Burley, Idaho. I graduated 10 months later. I immediately became employed in Burley for Norma Denny, Meme's Beauty Salon. I worked for two years, then on November 4, 1963 I married Dume Espinosa from Burley. We had two sons, Dennis, August 24, 1964, Damian Frances, March 18, 1966. In 1966 we moved to Pocatello. I worked in Pocatello from 1966 to 1970 at Fargo's Beauty Salon. In 1970 we moved to Great Falls, Montana. I worked there for one year. In 1971 I returned to Burley and became divorced in November 1975. In 1978 I moved to Boise and was employed by Brookover's. I was married April 1, 1981 to Lupe Reyes from Rupert, Idaho. I am still employed at Brookover's Downtown Salon, 815 Idaho Street, and we reside with my two sons in Boise, Idaho. My sincerest regards to all of the "Tigers" of Class of "61". The Lord's blessing to each and every one of you.

Went to Beauty School in Boise from 61-62. Married Paul in 63. Had our first born, a son, in 64. In 66 my husband was stationed in Vietnam so I moved back to Jerome till after I had delivered our second child. She was very ill and Paul was called back. She died that December, and then we were reassigned to Mildenhall, England where we served 5 years and there our last child was born, a girl.

I have worked as a Cosmetologist for 19 years, in that time I have managed and even owned my own shop. My husband retired from the Air Force in October of 79, and he now manages the local Radio Station. I recently was awarded the 1981 Cosmetologist of the Year for the State of Idaho. In July of this year, I will compete nationwide in New York. In November of this year, my husband will run for Mayor of Mtn. Home.

Not much has changed in the last 10 years. We have another daughter. She's been a real joy to our family as have been the rest.

My husband has his own Insurance Agency. He enjoys being his own boss.

I do cake decorating in my home. I do a lot of wedding cakes and this is a busy time for weddings. I also do a lot of novelty cakes. It's a fun job.

We just returned from a vacation in Acapulco, Mexico. It was a lot of fun. We didn't take the kids so it was a nice break also. My husband won the trip and all expenses were paid so that made it a lot nicer.

Work, going to school, having babies and work. I graduated from Boise Jr. College in 1963 and began teaching at Three Creek that fall. Jim and I were married in 1964 so I moved closer to home and taught school in Kimberly for three years.

Our first baby arrived in 1970, the second in 1974 and the last surprise (actually it was a shock) came in 1978. In between all these little bundles of joy, I've continued to teach and take college classes.

We live on the farm north of Jerome that originally belonged to Jim's grandfather. When there's any time to spare, we enjoy fishing and camping, horse racing and watching rodeos.

Raising five children for the past 18 years keeps one quite occupied. School and church activities along with several part time jobs have kept me rather busy. I find time for some tole painting, cake decorating, liquid embroidery & doing silk flower arrangements. Gardening and canning are a big thing at our house every year. Am getting rather good at it too!

For fun, we enjoy camping, fishing & site seeing. Of course we love spending time at the "Jepson" family cabin at Alturas Lake whenever we can. It is a great place for snowmobiling.

As Jim has his private pilot's license, we do some flying from time to time. Because of it, we have gotten into photography. Jim loves aerial pictures, but I'd just as soon take all of mine with both feet on the ground!

We are proud to have our oldest son graduate from high school this year. Exactly 20 years after his mother! Unbelievable! Also our oldest daughter was recently married. Didn't think I would ever become a "mother-in-law". History is beginning to repeat itself. It's nice, but a little scary.

I attended college at College of Idaho. During summers I worked at Cougar Mountain Lodge by Cascade and Lake Arrowhead in California.

I became a junior high teacher and a homemaker at about the same time. Michelle was born in 1967 and Mike in 1969. After several years teaching in Parma and Caldwell, a move to Boise also meant a move in teaching positions.

I divorced in 1976 and have kept very busy raising my kids and teaching - all teenagers by the way!

For the past four summers I have been involved in YCC Camps (Youth Conservation Corps) first as a cook for 36 at Harriman State Park in Idaho and then as Director for a camp at Columbia White-tailed Deer Refuge in Cathlamet, Washington. I have loved every minute of it! As this summer approached and YCC funds dwindled, I took a fascinating job waitressing. How's that for a real change?!

This next fall I will be on sabbatical leave for completion of a long overdue

MA at BSU. I will be back in the classroom at West Jr. High in January.

Hobbies that have kept life interesting are skiing, YCC, football for Mike, dance for Michelle, camping, and being a neighborhood Mom.

I attended college in Fresno and was married there in 1966. I lived in Fresno for five years and then moved to southern California for nine years. I worked as a secretary in a large high school for four years of that time. When I was divorced, I moved with my daughter to Las Vegas for three years where I met and married Jim. We moved to Minneapolis for a year and are now settled in Bismarck, hopefully Jim's company will leave us here for a while (I hate moving). I work for the Burleigh County Housing Authority as an Administrative Secretary. Jim is a Marketing Specialist for Dakota Electric, Division of EsMarc. We added Kevin to our family in 1977, which makes our family very complete. In my spare moments from job and family, I golf and still read daily.

I moved to Ketchum the summer of 1961 and started working for the Sun Valley Co. doing about every type of work a resort offers. In 1969 I moved to Oregon where I married Gayle. For two years we owned and operated two trucks hauling produce throughout the Western States and Canada. In 1971 we moved back to Ketchum where I joined and am still employed as a firefighter for the city of Ketchum. I have also been on the Sun Valley Ski Patrol for the past 11 years. As a firefighter, I have 20 days off a month so I have plenty of time for hunting, fishing, traveling and etc.

I'm a single parent (available) raising my two boys. We enjoy this area very much and do get out quite a lot into the mountains. Stop in anytime you are up this way.

I spent 8 years as a Navy wife, following my husband a "Nuke" around the east coast from Maine to South Carolina. It was during this time we had our children, 3 boys and finally a girl. After the Navy years, Jerry and I settled in rural Maryland, just one hour's drive from Washington, D.C. It is a nice place to raise children, quiet country life, but close enough to the excitement and advantages of the Nations Capitol so I became a typical suburban housewife with a car pool and a station wagon.

Swimming entered our family lives 5 years ago and now I coach an AAU Swim Team that competes on a State and Regional level. My husband and children and coaching career keep my life busy and challenging . . . and I LOVE IT!!

I like many of you, can hardly believe that we've been out of school for twenty years. I have a son entering high school this fall - It seems like such a short time ago that we were taking that big step. The years do have a way of slipping by very quickly.

Eldon attended college in Pocatello after we were married. After graduation, he accepted a position with IBM. We had to leave our good old home state and move to Colorado. We first lived in Boulder, then in 1972 we moved to a smaller town.

We have two sons, Bill and Michael. The two boys both have paper routes and are very active in sports. Between the two of them, I really keep on the move. Our favorite pastime in the fall months is watching the Denver Bronco Football Team. Any time that we can beg, borrow, or steal tickets, we attend the games.

We enjoy camping, fishing and boating in the summer months. We take a yearly trip to Idaho every summer to visit friends and family. We spent a few days on a houseboat on Lake Powell one summer. We had one exciting trip to British Columbia to see Eldon's sister, Carol and her family. Eldon does a lot of traveling for IBM, but so far I've been stuck staying home with the boys.

I enjoy knitting, bowling, and sewing. I make most of my own clothes and even made drapes for my home. I enjoy my family and my home very much and am very contented to stay home and be a housewife and mother.

If any of you are ever in the Denver area, please call or stop by.

I quit barbering in 1979 because I got tired of standing and prices. I worked in Wyoming for a year and 4 months on gas pipelines. I went rock hunting and saw a lot of game, etc. Then I went on Construction for about 5 months. Then I went to work for Jannes Corp. (Energy) Gasahol. I am now running a boiler on wood.

Boys are still growing, they're not bigger than me yet, about 4 more years.

The last twenty years have been quite an experience, and I hope the next twenty are a little easier. I graduated from Twin Falls Business College with a Steno Degree and then decided to try the big city to start my business career. I moved to Hayward, California and went to work for Pacific Airmotive at the Oakland Airport, Oakland, California. I got homesick for Idaho after a while and moved back to Boise in 1963. I went to work for Boise Cascade Corporation as a Data Processor. I married Tom Irwin and had two beautiful daughters. Spent the next 13½ years of my life being a wife and a working mother. I worked for the Idaho Air National Guard in the Adjutant General's Office during that time.

In 1977 I divorced, went to work for the Forest Service and became a whole person. In 1978 I sold my home in Boise and moved my girls to Fort Collins, Colorado, but they weren't happy so we decided to come back to good old Idaho. I went to work for the U.S. Forest Service, Aviation Management, Boise Interagency Fire Center and then transferred to State and Private Forestry in the same Agency at the Fire Center.

I married Lee Bernasconi in 1980. We decided after 6 months together that we were happier being single and that is my current status. My daughters are both in High School now and that will surely prove to be an interesting time for me. My plans for the immediate future are to go back to college.

I moved back to Florida after graduation. I lived there for two years then spent one year in St. Louis and one year in New York State. I returned to Idaho about this time and went to work for the Telephone Company in Twin Falls. I was a supervisor in the traffic department until I married Ron Sauer in 1966. We lived in Montana for a while but have lived in Hagerman for the past twelve years. I have lived all over the United States but much prefer life in a small town community.

I am active in the Gooding Women's Bowling Association where I hold the office of Local Association Secretary. I am also a State Director for the Idaho State Women's Bowling Association. I work parttime at the Buhl Country Club where I am attempting to learn the game of golf. For the past several years I have coached girl's slo-pitch softball, boy's little league baseball, and this year took on a girl's basketball team. I've had a very fulfilling life and wouldn't change any of it.

After high school, I attended the University of Idaho, graduating in 1966 with a B.A. in English and Secondary Teaching Certificate. I quickly put my degree to work by teaching high school English, Speech/Drama, and Journalism in the State of Washington.

Fred and I were married ten years ago. Fred is an accident investigator specialist with the Washington State Patrol. We have two boys who keep us really busy.

After Matt (my oldest) was born, I took a leave of absence from the Monroe School District for seven years. I finally went back last year and now teaching in the Junior High - Language arts and business.

During my leave of absence from teaching, I became very active in city

politics. I ran for City Council, was elected, and am now halfway through my second term.

I am looking forward to seeing everyone again. I think we are all much too young to be having our twentieth.

Immediately after graduation I entered college of Idaho for two years followed by two years at Weber State - graduating with my Registered Nurse. During this time, I met and married my sweet husband, Dick Oyler, from Tremonton, Utah. We attended Dental School in Cleveland, Ohio for four years while we lived through the racial riots of the late '60's. Since then it has been a steady string of moves and events totaling twelve moves in seventeen years of married life, including the service (Air Force) and four and a half years in Malad with a private practice and over one year in American Samoa which was a wonderful experience for the whole family. We will be going back hopefully next year for a visit. The past five years we have spent in Pocatello and we are now very involved with all the activities of a large and very active family. Horses, Boy Scouts, singing, dancing, piano, drill team, flag team, basketball, track, football, softball, church activities, etc. Without a doubt, our greatest joy is found with our six children and our church activities.

I am still doing all the same things I was doing when the 10 year reunion rolled around, except I have a few more wrinkles while I'm doing it. I'm still married to the same man (which is unique for this time and place) and we still live in the same house. Our two boys have gotten much taller; they are now 10 and 12 (they were 8 months and 2 years at the 10 year reunion). The REALLY BIG thing I did is that I received my BA Degree (Cum Laude in two majors) from San Francisco State University in January. I felt that there was a real statement in the fact that I finished college 20 years after I graduated from high school - the statement being that I am either very slow or very persistent - we won't deal on which. I am now looking for employment that will give me a \$30,000. a year salary for working 9 to 2, four days a week. Any offers?

We live 30 miles from San Francisco, across the Golden Gate Bridge, in beautiful lush Marin County. My husband teaches High school Biology and Coaches Soccer. OH YES, another big achievement of mine - certainly a real achievement for someone who never did anything more athletic than walk

home from school - I now jog 2 or 3 miles every other day. So, it can now be said - 20 years after high school graduation - that I am a true scholar and athlete.

After getting out of school, I went into contracting for a while. In the summer of '62, Pat and I got married. In the fall of 1962, I went to work for J.C. Penney Co. in Jerome until 1968. Pat, in the meantime, went to beauty college and started working. In '66 we were blessed with a son and in '68 we were blessed with a daughter. In '68 I went back into contracting with my brother until '72. In '72, I started building custom cabinets and opened a craft shop. In '75, we changed locations, the store and inventory was enlarged and the Beauty Salon was opened. This brings us up to present time.

CLASSMATES: Through my later years in school I found myself searching for something in life that I could not find. Possibly some of you are going through some of the same things. I felt no need for the God of the Bible in my life but something special happened to myself and later on to my wife and family that I am sharing with you. I am so thankful that God sought me out. All my life I had a head belief in God and in Jesus but I was shown by a friend from the Bible that this was not what counted as far as spending eternity in Heaven. No matter how good I thought I was, I was still a sinner. (Rom. 3:23 - For all have sinned and come short of the glory of God). (Rom. 3:12 - There is none that doeth good, no, not one).

I was shown from the Bible that no matter how sincere I was, or how good I was, the wages of me being a sinner was eternity in Hell (Rom. 6:23 - For the wages of sin is death; but the gift of God is eternal life thru Jesus Christ our Lord). I am very thankful to know that if I was to die I would spend eternity in Heaven. (1 John 5:13 - These things have I written unto you that ye may know that ye have eternal life and that ye may believe on the name of the son of God.) Not because of who I am, or who you are, not because of my good works or your good works, (I Isa. 64:6 - But we are all as unclean things, and all our righteousnesses are as filthy rags). Not because of the church I attend or the church you attend, not because I have been baptised or you have been baptised but by repenting of my sins and taking Jesus as Lord and Savior of my life. God showed me that I was a sinner and that a holy God and sinners do not mix.

But God showed me in the Bible that his son Jesus died on the cross to pay the penalty of sin. The Bible says to get to Heaven (John 3:3 Ye must be born again or be born from above). God's word says in (Luke 13:3 - I tell you, nay but, except ye repent, ye shall all likewise perish). (Isa. 43:11 - I, even I, am the Lord, and besides me there is no savior). (Romans 10:9 - That is thou shalt confess thy mouth the Lord Jesus and share a belief in thine heart that God hath raised him from the dead, thou shalt be saved).

God gave me the desire to do what he has instructed us to do and I was gloriously saved, I don't have to search anymore because He searched me out. I pray that by reading this testimony that God will show you your need of turning to Him for Lord and Savior over your life. Then you, too, like myself, can look at the world through different eyes and with a new desire in life.

As a career Naval Officer I've found a profession that allows a pleasant combination of benefits and travel. I've spent the past 20 years in kind of a "transient" capacity, "temporarily" away from Sunny Southern Idaho.

My visits "home" haven't been as frequent as I would like but my intentions always have been and always will be to return permanently to Idaho. It's just a question of when. Let's see - what have I been doing . . . I guess the thing to do is start at the beginning of my world journey. I spent a few years in San Diego, California then it was off to Vietnam for a couple of years. When I

left Vietnam it was back to San Diego, then to Tokyo, Japan for four years. I then spent 3½ years in Memphis, Tennessee before going to the Philippines for a year. In 1980 I graduated from the University of New York and returned once again to Memphis, Tennessee where I am presently stationed. Having completed my 20 years of Navy Service I had intended to retire on April 1st of this year and return to Idaho; however, the Navy offered me a contract to go to Spain and I elected that option instead of retirement. At this time I am a Navy Lieutenant, assigned as the Officer in Charge of Special Projects for the command. It's an interesting and challenging assignment, one that I will miss when I leave for Spain. I don't know what my assignment will be when I get to Spain but I am looking forward to touring Europe during my free time.

I'm hoping at this time to be able to attend the reunion, but in the event I don't make it then I'll see everyone when I retire in 1983 and return "home" to Idaho permanently.

After teaching three years in Eugene, Oregon, during which time I found Christ as Savior, I went to Medellin, Colombia as a teacher of missionary children. This I did 2½ years, then began working with Colombian children in home Bible Clubs. I continued in Colombia until 1979, teaching adults and young people in evangelical churches how to present the Bible to children so it would be understood on their level. Since 1976 I have been working under the Child Evangelism Fellowship. In 1979 I took a two year leave-of-absence to study Bible at Multnomah School of the Bible. My new assignment will be teaching Costa Rican Christians how to work with children teaching them the Bible and leading them to Christ. While in the States, I had been working with Laotian refugees in the Portland Public Schools, as an ESL (English as Second Language) Teacher.

I went to college at Ricks College in Rexburg for one year. In August of 1962 I was married to George and we returned to Ricks where I attended school part time and worked in the administration office to put George through two more years. When our first boy was on his way, we moved to Twin Falls. After about a year, we moved to Idaho Falls where he worked for the Atomic Energy commission. In 1967 we moved to Seattle and spent three years working for Boeing in the engineering department. Then in 1970 we moved to Sacramento to work for Lockheed. At that time my husband decided to change professions. We spent three very enjoyable years in Sacramento then grabbed at an opportunity to move back to Idaho. While we were in Sacramento, I worked for a large stock brokerage and when we returned to Twin Falls, I was able to find work for a stock and commodity brokerage there. My husband was manager of an OK Tire Store. I spent nearly six years working for the borkerge and then my husband decided to go into business for himself so I quit to help him. We own and operate a tire store and mechanic shop in Filer. I am now working for the Twin Falls School District as their payroll and records clerk. We have two sons (can this possibly be me with teenage children?!), a Springer Spaniel, a comfortable home in the middle of beautiful downtown Filer, and enough friends to make life pleasant. After graduation I spent the summer with my brother in Chicago, Ill. before entering flight training with the U.S. Navy. I spent five (5) years in the Navy and flew 150 combat missions in Viet Nam from the carrier Ranger. After returning from Viet Nam I left San Diego, California and reported to Glynco, Georgia as a radar intercept instructor at the Glynco Technical Training Center. I left active duty in September 1970 and worked as office manager for a Texas based construction company converting a coal burning power plant to an oil burning plant. On December 1, 1973, I married June and took a honeymoon in New Orleans, LA before going to work for Hercules Incorporated on the 17th of December. I started at Hercules as a yard laborer and six months later was promoted to a personnel clerk. A year later I was promoted to Employment Supervisor, a year later to Personnel Supervisor and a year later to Employee Relations Supervisor with approximately 1700 employees. In July of 1980, I transferred to the Forest Resources Division as Purchasing Agent.

Basically, for the first ten years out of High School, I had one year of college and then spent the next nine putting my husband through school, raising three children of our own and three foster children. During that time, I was also very active in community volunteer work and won a national award for my work.

For the last six years, I have been in school at Boise State University finishing in December of 1980. My major was three dimensional sculpture and design with a minor in psychology. To finance school and extras, I built, owned and operated my own metal sculpture and welding business called, "Expressions". I was doing commissioned metal sculptures for large corporations in the western states.

Our three children have grown with "lightning speed" as they say, and they are all very active in school and athletics. I am proud that they are "neat" kids.

Six months ago, I started working for a national sign company as a sales representative and also doing my own design work. It is a very challenging and creative job and the people I work with are terrific. I do volunteer work at the Elks Rehabilitation Hospital in Boise, teaching teenagers and young adults how to play either a special guitar or a regular one. My evenings and weekends are spent keeping up with my children and my commissioned metal sculpture commitments.

The only sad note in an otherwise terrific twenty years is that Lee and I are now divorced.

I have been engaged in the trucking business for the past fifteen years. I am an owner-operator and haul between Oregon and Colorado. My daughter graduates from High School this year. My three sons are still in school but travel with me as often as possible. We have lived in Hagerman, Idaho, for the last twelve years. I am married to the former Kay Craner and so we are both looking forward to the class reunion.

I graduated from ISU in Speech Pathology and Audiology in 1965. Worked as a Speech Pathologist in Anchorage until 1967. Moved to Sheridan, Wyoming and then to Birmingham, Alabama, where I worked at the V.A. Hospital and University of Alabama Medical School as a Speech Pathologist. I then moved to Columbus, Georgia in 1970. Since coming to Columbus eleven years ago, I have completed a Master's Degree in Special Education, another Master's Degree in Educational Administration and am currently completing my EDS Degree at Georgia State University. I have been Coordinator of Programs for the Speech, Language, and Hearing Impaired in Muscogee County, Georgia for the past 6 years. I have 66 programs and a 57 member staff. I have had many outstanding opportunities and honors in recent years, including being named as Outstanding Young Woman of America for 1979 and working as a consultant for the American School Foundation in Mexico City, Mexico. I have two lovely daughters that make me very proud. We spend as much time as possible on our local Chattahoochee River enjoying water sports. Y'all come see us!

For most of the last twenty years, I have been a housewife and mother, and except for 3 years in Maine, have lived in the Magic Valley area during that time.

Three years ago, I became a free woman and went to work as a secretary bookkeeper for Farm Bureau Insurance in Jerome where I also live.

After a four-year engagement, Jim and I were married the day after he graduated from the Naval Academy. The next four years were spent in San Diego, rather I spent the next four years in San Diego while Jim was doing two tours of duty in Viet Nam. Thereafter, we moved to Annapolis, Maryland for his final tour as an instructor at the Naval Academy. Having decided to pursue golf as an occupation rather than a hobby, Jim turned Professional in 1970. During this time period, I spent several years doing secretarial work, and finally moved through the ranks to Marketing Analyst for the international and domestic airlines. After fifteen years, I finally decided on what I wanted to do when I grew up - work with my husband in the golf business. The last five years have found me managing our Pro Shop at a private country club in Maryland, about 20 minutes from downtown Washington, D.C. where Jim is the Head Professional and Executive Director.
